**Back Ground on Belize:**

Belize is a unique country that incorporates the Caribbean Sea, the longest Barrier Reef in the Western hemisphere, exotic wild life, and much, much more...Another unique feature of Belize is the population mix. With a population of 400,000 people groups: Carib Indian-African Garifunas, African-European Creoles, Spanish-Indian Mestizos, Mayans, European immigrants. The official language is English, but you will also hear dialects of the Spanish, Creole, Garifuna and Mayan. Belize is strategically located in Central America, and serves as a springboard to endless mission trips possibilities to Mexico.

**Location:**

Caribbean, western one-third of the island of Hispaniola, between the Caribbean Sea and the North Atlantic Ocean, west of the Dominican Republic

**Currency:** Belize currency exchange is extremely easy for American visitors. The Belize dollar is locked at \$2 B see how much something is costing in USD when you go shopping. Most accommodations and tours are listed in shops, etc. are listed in BZ\$. Nearly everyplace readily accepts USD currency. Most also should accept traveler's passport number or driver's license number on the back. Large bills (anything above a \$20) are a little more difficult you to spend a minimum amount.

**Geography:** Belize is located in Central America and it is bordered to the north by Mexico, to the south and west Caribbean Sea. We are a diverse country with various cultures and languages. We also have the lowest population people per square mile or 14 people per square kilometer.

Belize is also known for its extreme biodiversity and distinctive ecosystems. On the coast, there is a swampy coast the south and interior there are hills and low mountains. Most of our land is undeveloped and is forested with hard Mesoamerican biodiversity hotspot and it has many jungles, wildlife reserves, a large variety of different species of system in Central America. Some species of Belize's flora and fauna include the black orchid, the mahogany tree

**Population:**

**9,893,934** (July 2013 est.) **country comparison to the world: 88**

**Age structure:**

- **0-14 years:** 34.6% (male 1,716,917/female 1,708,978)
- **15-24 years:** 21.5% (male 1,064,069/female 1,066,614)
- **25-54 years:** 34.8% (male 1,713,478/female 1,729,432)
- **55-64 years:** 5% (male 235,278/female 258,330)
- **65 years and over:** 4.1% (male 178,842/female 221,996) (2013 est.)

**Median age:**

**Total: 21.6 years male: 21.4 years female: 21.9 years**

**HISTORY OF BELIZE**

The first people to develop Belize were the Maya around 1500 B.C.E. As shown in archeological records, they established a number of settlements here. These include Caracol, Lamanai and Lubaantun. The first European contact with Belize occurred in 1502 when Christopher Columbus reached the area's coast. In 1638, the first European settlement was established by England and for 150 years, many more English settlements were set up.

In 1840, Belize became a "Colony of British Honduras" and in 1862, it became a crown colony. For one hundred years after that, Belize was a representative government of England but in January 1964, full self-government with a ministerial system was granted. In 1973, the region's name was changed from British Honduras to Belize and on September 21, 1981, full independence was achieved.

**People:**

From the moment you arrive in Belize – whether you are an adventure traveler, part of a family trip or in the country for a relaxing beach vacation – Belize people and culture make you feel as welcome and comfortable, like nowhere you've ever visited.

In Belize, our traditions and customs are varied and represent more than eight diverse cultures. For generations, the people of Belize have demonstrated a cultural commitment to preserve the

country's unique charms. This enduring promise to the land, the waters and you, our visitor, inspires all to achieve a genuine and intimate connection to a variety of extraordinary experiences.

We are truly a melting pot of colorful personalities, making our 321,115 residents the country's greatest resource for tourism. **The Belizean people are made up of Maya, Mestizo, Kriol, Garifuna, East Indian, Mennonite, Arab and Chinese.**

### **Weather:**

One of the nicest things about visiting Belize is the weather. With an average yearly temperature of 84° F (29°C), it's always warm, yet comfortable. Coastal sea breezes as well as our jungle and rainforests keep you cool even in the hottest summer months while winters can be cool but never very cold. In short, the climate is pretty much near perfect. Even in winter (November-March) the temperature in Belize rarely falls below 60°F (16°C), while the summer (May-September) is around 86°F (30°C). Humidity is also fairly consistent at around 85 percent.

Belize's dry season is between February and May and has significantly lower rainfall than the rest of the year. When it does rain, it is usually in mild, short bursts.

June through December is our wet season, when parts of the country receive up to 150 inches of rain and the heavy, sometimes wild storms associated with the Caribbean occur, usually in the late afternoons. The most frequent rainfall usually happens in June or early July and is punctuated by a break in late July or August known as the "little dry."
